# SAFETY DATA SHEET

### 1. Identification

| Product identifier                                     | TuffRez 235 - Hardener/Side B |  |  |
|--|-------------------------------|--|--|
| Other means of identification                          |                               |  |  |
| SKU#   | TR320H                        |  |  |
| Recommended use  | Not available.                |  |  |
| <b>Recommended restrictions</b>                        | None known.                   |  |  |
| Manufacturer/Importer/Supplier/Distributor information |                               |  |  |
| Manufacturer   |                               |  |  |

Holcim Solutions and Products US, LLC 26 Century Boulevard, Suite 205 Nashville, Tennessee 37214 1-800-878-7876 •www.polyspec.com

| Emergency phone number      | CHEMTREC<br>International             | 800- 424-9300<br>703- 527-3887 |             |
|-----------------------------|---------------------------------------|--------------------------------|-------------|
| 2. Hazard(s) identification |                                       |                                |             |
| Physical hazards            | Flammable liquids                     |                                | Category 3  |
| Health hazards              | Acute toxicity, oral                  |                                | Category 4  |
|                             | Acute toxicity, dermal                |                                | Category 4  |
|                             | Acute toxicity, inhalation            |                                | Category 4  |
|                             | Sensitization, skin                   |                                | Category 1A |
| Environmental hazards       | Hazardous to the aquatic en<br>hazard | nvironment, acute              | Category 2  |

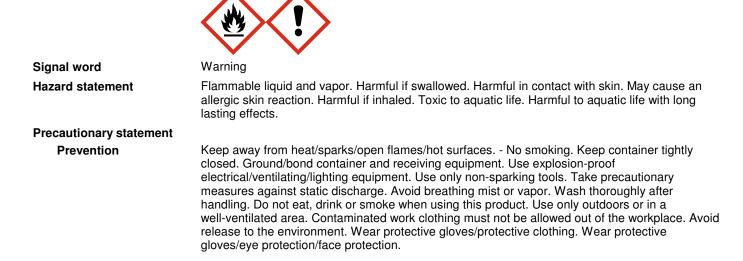

long-term hazard

Not classified.

Hazardous to the aquatic environment,

**OSHA** defined hazards

Label elements

Category 3

| Response                                     | If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse. In case of fire: Use appropriate media to extinguish. |
|--|--|
| Storage                                      | Store in a well-ventilated place. Keep cool.   |
| Disposal                                     | Dispose of contents/container in accordance with local/regional/national/international regulations.  |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |
| Supplemental information                     | None.  |

# 3. Composition/information on ingredients

**Mixtures** 

| Chemical name                               | Common name and synonyms | CAS number | %        |
|---|--------------------------|------------|----------|
| Hexamethylene Diisocyanate (<br>Homopolymer | hdi)                     | 28182-81-2 | 60 - 100 |
| 1-Chloro-4-(trimethyl)benzene               |                          | 98-56-6    | 10 - 30  |
| Other components below repo                 | rtable levels            |            | 0.1 - 1  |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4. First-aid measures

| Inhalation   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Call a physician if symptoms develop or persist.   |
|--|---|
| Skin contact   | Remove contaminated clothing immediately and wash skin with soap and water. Get medical advice/attention if you feel unwell. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.  |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.   |
| Ingestion  | Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical advice/attention if you feel unwell.   |
| Most important<br>symptoms/effects, acute and<br>delayed                     | Direct contact with eyes may cause temporary irritation. May cause an allergic skin reaction.<br>Dermatitis. Rash.  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim warm. Keep victim under observation. Symptoms may be delayed. |
| General information  | Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.  |
| 5. Fire-fighting measures  |   |
| Suitable extinguishing media   | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).   |
| Unsuitable extinguishing media   | Water. Do not use water jet as an extinguisher, as this will spread the fire.   |
| Specific hazards arising from the chemical                                   | Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. During fire, gases hazardous to health may be formed.  |
| Special protective equipment<br>and precautions for firefighters             | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.   |
| Fire fighting<br>equipment/instructions                                      | In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.  |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.  |
| General fire hazards   | Flammable liquid and vapor.   |

### 6. Accidental release measures

| 0. Accidental release meas  | Suies  |
|---|--|
| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of vapors and spray mists. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.  |
| Methods and materials for<br>containment and cleaning up                  | Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. Prevent product from entering drains.  |
|   | Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.   |
|   | Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.  |
|   | Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.  |
| Environmental precautions   | Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.   |
| 7. Handling and storage   |  |
| Precautions for safe handling   | Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Do not taste or swallow. Avoid inhalation of vapors and spray mists. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Avoid release to the environment. Wash contaminated clothing before reuse. Observe good industrial hygiene practices. |
| Conditions for safe storage,<br>including any incompatibilities           | Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a cool, dry place out of direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS).   |

### 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

| Biological limit values            | No biological exposure limits noted for the ingredient(s).   |  |  |
|------------------------------------|--|--|--|
| Appropriate engineering controls   | Explosion-proof general and local exhaust ventilation. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |  |  |
| Individual protection measures     | , such as personal protective equipment  |  |  |
| Eye/face protection                | Face shield is recommended. Wear safety glasses with side shields (or goggles).  |  |  |
| Skin protection<br>Hand protection | Wear appropriate chemical resistant gloves.  |  |  |
| Other                              | Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.   |  |  |
| other                              | wear appropriate chemical resistant clothing. Use of an impervious aprofilis recommended.  |  |  |
| Respiratory protection             | If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.  |  |  |
| Thermal hazards                    | Wear appropriate thermal protective clothing, when necessary.  |  |  |
| General hygiene<br>considerations  | When using do not smoke. Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.   |  |  |

# 9. Physical and chemical properties

| 9. Physical and chemical p                 | Jopernes  |
|--|---|
| Appearance                                 | Liquid.   |
| Physical state                             | Liquid.   |
| Form                                       | Liquid.   |

| Solubility (water)                         | Not available.  |
| Partition coefficient<br>(n-octanol/water) | Not available.  |
| Auto-ignition temperature                  | Not available.  |
| Decomposition temperature                  | Not available.  |
| Viscosity                                  | Not available.  |
| Other information                          |   |
| Density                                    | 9.70 lb/gal   |
| Explosive properties                       | Not explosive.  |
| Flammability class                         | Combustible II estimated  |
| Oxidizing properties                       | Not oxidizing.  |
| Specific gravity                           | 1.16  |
| VOC  | 335 g/l Mixed components  |
| 10. Stability and reactivity               |   |
| Reactivity                                 | The product is stable and non-reactive under normal conditions of use |
| Chamical atability                         | Material is stable under normal conditions                            |

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport.  |
|---------------------------------------|--|
| Chemical stability                    | Material is stable under normal conditions.  |
| Possibility of hazardous<br>reactions | Hazardous polymerization does not occur.   |
| Conditions to avoid                   | Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials. |
| Incompatible materials                | Strong oxidizing agents.   |
| Hazardous decomposition<br>products   | No hazardous decomposition products are known.   |

# 11. Toxicological information

#### Information on likely routes of exposure

| Information on likely routes of e   | exposure   |
|---|--|
| Inhalation  | Harmful if inhaled.  |
| Skin contact  | Harmful in contact with skin. May cause an allergic skin reaction.   |
| Eye contact   | Direct contact with eyes may cause temporary irritation.   |
| Ingestion   | Harmful if swallowed.  |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics                        | May cause an allergic skin reaction. Dermatitis. Rash.   |
| Information on toxicological effe   | ects   |
| Acute toxicity  | Harmful if inhaled. Harmful in contact with skin. Harmful if swallowed.  |
| Skin corrosion/irritation   | Prolonged skin contact may cause temporary irritation.   |
| Serious eye damage/eye<br>irritation  | Direct contact with eyes may cause temporary irritation.   |
| Respiratory or skin sensitization   | n  |
| Respiratory sensitization   | Not a respiratory sensitizer.  |
| Skin sensitization  | May cause an allergic skin reaction.   |
| Germ cell mutagenicity  | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.   |
| Carcinogenicity   | This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.  |
| Not listed.<br>OSHA Specifically Regulate<br>Not regulated.<br>US. National Toxicology Pro<br>Not listed. | Evaluation of Carcinogenicity<br>ed Substances (29 CFR 1910.1001-1050)<br>ogram (NTP) Report on Carcinogens  |
| Reproductive toxicity<br>Specific target organ toxicity -<br>single exposure                              | This product is not expected to cause reproductive or developmental effects.<br>Not classified.  |
| Specific target organ toxicity -<br>repeated exposure   | Not classified.  |
| Aspiration hazard   | Not an aspiration hazard.  |
| Chronic effects   | Prolonged inhalation may be harmful.   |
| 12. Ecological information  | 1  |
| Ecotoxicity   | Toxic to aquatic life. Harmful to aquatic life with long lasting effects.  |
| Persistence and degradability   | No data is available on the degradability of this product.   |
| Bioaccumulative potential   | No data available.   |
| Mobility in soil  | No data available.   |
| Other adverse effects   | The product contains volatile organic compounds which have a photochemical ozone creation potential.   |
| 13. Disposal consideration  | ns   |
| Disposal instructions   | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with a berniced equations. |

with chemical or used container. Dispose of contents/container in accordance with

The waste code should be assigned in discussion between the user, the producer and the waste

Dispose of in accordance with local regulations. Empty containers or liners may retain some

product residues. This material and its container must be disposed of in a safe manner (see:

local/regional/national/international regulations.

Dispose in accordance with all applicable regulations.

disposal company.
